# Preface

---

The preparation of this report was funded through the Tri-Service CADD/GIS Technology Center (Tri-Service Center) located at the Information Technology Laboratory (ITL), U.S. Army Engineer Waterways Experiment Station (WES), in Vicksburg, MS. The report contains the results of a project accomplished by the Tri-Service Center's Environmental Field Working Group (FWG) during fiscal year 1996 (FY96) entitled "Identify and Review Environmental Restoration and Compliance Initiatives Using Computer-Aided Design and Drafting (CADD)/Geographic Information System (GIS) Technology."

The report was prepared under the direction of Dr. N. Radhakrishnan, Director, ITL, and Mr. John A. Hood III, PE, and Mr. Harold Smith, Acting Chiefs, Tri-Service Center. The Tri-Service Center functions under the guidance and direction of the Executive Steering Group (ESG) composed of Dr. Get Moy (Navy), present chairman of the group, Mr. Steven Stockton and Mr. Charlie Cheung (U.S. Army Corps of Engineers (USACE)), Mr. Mark Meranda (Army), and Mr. Gary Erickson (Air Force). The goals and objectives of the Tri-Service Center are reviewed and guided by the Executive Working Group (EWG), currently chaired by Mr. Don Ritenour (Air Force), and composed of Mr. Dana (Deke) Smith (Navy), Mr. Ron Hatwell (USACE), Col. William Pearson (Air Force),

Mr. M.K. Miles (USACE), Mr. Jim Carberry (Navy), Mr. Thomas Rutherford (Office, Secretary of Defense), Dr. N. Radhakrishnan (WES), Mr. Joseph LaVoie (Army), Mr. Jeff Huskey (Navy), Mr. Paul Herold (Coast Guard), and Mr. Peter J. Sabo (Army).

The members of the Tri-Service Center's Environmental FWG during FY96 included Mr. Christopher Kyburg (Southwest Division NAVFACENGCOM and FY96 chairman), Mr. Steven Gonzales (HQ NAVFACENGCOM), Mr. Sam Bass (USACE HTRW MCX), Mr. Mung Lun Yuen (HQ AFCEE), Mr. Phil Hunter (HQ AFCEE), Ms. Vicky Cwiernie (Aberdeen Proving Ground), Mr. Bill Lopp (HQ AETC), Mr. Larry Mann (USAE District, Seattle), Mr. Neil Fehr (USAE District, Kansas City), Mr. Thomas Stephan (Northern Division NAVFACENGCOM), Ms. Georgette Myers (Army Environmental Center), and Mr. Bobby Carpenter (Tri-Service Center.)

Authors of the various chapters and appendixes of the report include Mr. Brian Shin and Mr. Steven Gonzales, HQ NAVFACENGCOM, and Mr. Bobby Carpenter, Tri-Service Center.

During the publication of this report, Dr. Robert W. Whalin was the Director of WES.

# 1 Introduction

---

## Purpose

This report summarizes the findings of an effort accomplished by the Tri-Service Computer-Aided Design and Drafting (CADD)/Geographic Information System (GIS) Technology Center's (Tri-Service Center's) Environmental Field Working Group (FWG) during fiscal year 1996 (FY96) to identify and review Environmental Restoration (ER) and Environmental Compliance (EC) initiatives using CADD and/or GIS technology. The purpose of this effort was two-fold: (1) minimize duplication of effort, encourage communication, and facilitate transfer of available information and knowledge concerning ER and EC activities between the various Department of Defense (DoD) organizations; and (2) determine the extent that CADD, GIS, and other computerized technology are used for accomplishing ER and EC activities, determine training needs, and determine methods for facilitating greater usage of this technology in the future.

## Applicability

The findings of this report are applicable to all DoD and Government project management, design, and technical personnel involved in the accomplishment or management of ER or EC activities.

## Availability

Requests for additional copies of this report should be sent to the Tri-Service CADD/GIS Technology Center (CEWES-ID-C) ATTN: Mr. Bobby Carpenter, U.S. Army Engineer Waterways Experiment Station, 3909 Halls Ferry Road, Vicksburg, MS 39180-6199 (telephone no. (601) 634-4572) (FAX No. (601) 634-4584) (E-mail: [carpenb@ex1.wes.army.mil](mailto:carpenb@ex1.wes.army.mil)).

An electronic copy of the information contained in the report may also be obtained from the Tri-Service CADD/GIS Technology Center's Internet Homepage at Uniform Resource Locator (URL) address - <http://mr2.wes.army.mil> (go to Environmental FWG).

## Background

In 1992, the Tri-Service CADD/ GIS Technology Center (Tri-Service Center) was established at the U.S. Army Engineer Waterways Experiment Station (WES) in Vicksburg, MS. The mission of the Tri-Service Center is to function as a coordination center that relies on the capabilities throughout the DoD to accomplish specific tasks and develop applications related to CADD/GIS technology. The functions of the Tri-Service Center are to provide limited applications

development, promote communications, develop standards, provide technical consultations, provide a technical role in acquisitions, interface with professional organizations and industry, evaluate technological developments, and recommend necessary CADD/GIS policy. The Tri-Service Center has been specifically tasked to consolidate and promote the use of CADD and GIS standards within the tri-service community.

During FY96 the Tri-Service Center's Environmental FWG undertook an effort to identify and review ER and EC initiatives and to communicate with other agencies and organizations involved with such activities. The effort focused on identifying (1) ER and EC initiatives involving CADD and/or GIS technology, (2) points-of-contact (POCs) for ER/EC activities, and (3) sources of digital information and data concerning ER/EC activities. The agencies and organizations of concern included the DoD; Environmental Protection Agency (EPA); and other branches of the federal, state, and local government; research institutions; and universities.

## **Environmental Restoration and Environmental Compliance**

For the purpose of this report the term *Environmental Restoration* (ER) refers to activities such as site assessments; site investigations; studies; feasibility studies; remedial designs; remedial actions; treatment, reduction, or removal concerning hazardous, toxic, and radioactive waste (HTRW), ordnance and explosive waste (OEW), chemical warfare materials, and biological warfare materials in the air, soil, sediment, groundwater, and/or surface water which are, or have the potential to be, detrimental to life and ecosystems on earth. Other terms used include environmental remediation and environmental cleanup. ER includes activities associated with the Installation Restoration Program (IRP), Defense Environmental Restoration Program at Formerly Used Defense Sites (DERP-FUDS), and Superfund.

For the purpose of this report the term *Environmental Compliance* (EC) refers to activities such as the management of chemicals and hazardous materials and wastes, processes, and activities in such a manner to comply with federal, state, and/or local environmental laws and regulations. Also included are studies and abatement activities involving buildings with environmental hazards (e.g., asbestos, lead, radon, PCBs, etc.), and the management of fuel and chemical storage tanks and appurtenances, and hazardous materials and hazardous waste.

## **Environmental Restoration/ Compliance CADD/GIS Initiatives**

This study focused on past, current, and/or future ER/EC initiatives, which for the purpose of this effort consisted of four areas of main concern:

- a. ER/EC programs and projects which made/make use of CADD and/ or GIS technology.
- b. Sources of the essential information and requirements (in electronic format) for ER/EC activities (e.g., federal, state, and/or local regulations; state, local, and federal regulator-accepted cleanup criteria and concentrations; background concentration data; risk assessment criteria and data; material safety data sheets (MSDS); applicable or relevant and appropriate requirements (ARARs); lessons learned; CADD details; standard operating procedures (SOPs); historic and current air, soil, groundwater, surface water, and sediment environmental quality data; historic and current aerial photographs and maps; boring and well logs, development data, and monitoring data; etc.) The sources of information may be available either through Internet web pages, electronic bulletin boards; or an office which disseminates the information.

- c. Database schemata and programs designed to manage data and facilitate the accomplishment of an environmental restoration and/or environmental compliance activities.
- d. Computer programs which perform analysis, management, modeling, or other functions relating to ER/EC activities.

## Report Development Process

### Research

The research, interviews, and basic preparation of this report were accomplished either directly by, or under the guidance of, the Tri-Service Center's Environmental FWG.

The basic research for the project was accomplished by a combination of telephone interviews, mailout questionnaires, a "downloadable" digital questionnaire on the Tri-Service Center's Internet Home Page, and a review of available ER/EC information and data sites on the Internet. A copy of the questionnaire and instructions are included in Appendix A.

Additional research focusing specifically on DoD project managers and contractors involved with implementing Release 1.4 of the Tri-Service Spatial Data Standards (TSSDS) was accomplished by Baker Environmental, Inc.; Airport Office Park, Building 3; 420 Rouser Road; Coraopolis, Pennsylvania 15108 through Delivery Order No. 7 of Contract No. DACA39-96-D-005.

### Focus Areas

The project focused on gathering information in the following categories:

(1) Name, address, phone number, accessibility to Internet, etc. information concerning POCs for ER/EC activities.

(2) Internet Web Site or Bulletin Board Service (BBS) sources of ER/ EC data and information provided by tri-service and other organizations.

(3) Categories and types of ER/EC work performed by each organization.

(4) Types of ER/EC and related electronic information and data available to other organizations.

(5) Extent that CADD and GIS technology is used to perform ER/EC activities, and the types of software used.

(6) Initiatives involving the use of CADD/ GIS technology to perform ER/ EC activities.

(7) Optional input concerning experience in using CADD/GIS for ER/EC type work, and recommendations on types of CADD/GIS training to offer.

### ER/EC Database

The information compiled during the research process was stored in an Access (Microsoft, Inc.) database (called the ER/EC Database) for management and report generation. A detailed discussion of the ER/EC Database and the reports generated from it are included in Chapter 3. The database will be updated on a periodic basis as new information becomes available.

### Internet Web Site

The Tri-Service Center established an Internet Web Site in FY96 for each of its Field Working Groups to use in sharing information regarding their activities and the use of CADD and GIS technology. The information gathered from this project is available for download from the Environmental FWG Web Site at URL address:

<http://fwgcom.wes.army.mil/fwg/envirom/envirom.htm>. The Environmental FWG Internet Web Site can also be accessed by following the "Center Working Groups" link on the Tri-Service CADD/GIS Technology Center's Internet Home Page at URL address: <http://tsc.wes.army.mil> to the "Environmental Field Working Group."

one-year effort in identifying ER/EC POCs and Environmental Restoration/ Compliance CADD/GIS initiatives. The accuracy and comprehensiveness of the information depends on the identification of the appropriate POCs for the Initiatives Survey, and their responsiveness to the telephone interviews and completion of the Initiatives Survey Forms.

## **Comprehensiveness**

The information gathered as a result of this study and included in this report is the result of a

## 2 Internet Sources of ER/EC Data and Information

---

Numerous Internet sources of ER/EC and related data and information have been identified. Links to these web sites have been added to the Environmental FWG Internet Web Site. The links will be updated as more Internet web sites are identified and become available. The URL addresses for web sites not currently included on the Environmental FWG's Internet Web Site should be sent to Mr. Bobby Carpenter, Tri-Service CADD/GIS Technology Center, at phone number 601-634-4572, fax number 601-634-4584, or E-mail address: [carpenb@ex1.wes.army.mil](mailto:carpenb@ex1.wes.army.mil). The identified Internet sources of data and information, with descriptions and URL addresses, are summarized below.

### Environmental FWG Internet Web Site

The Tri-Service Center has established an Internet web site for use by the Tri-Service Center's Environmental FWG at URL address: <http://fwgcom.wes.army.mil/fwg/environ/environ.htm> to provide:

- (1) The exchange of information regarding the activities of the Tri-Service Center's Environmental FWG.
- (2) The exchange of data and information concerning the use of CADD and GIS technology

in accomplishing environmental restoration and compliance activities within the tri-services.

- (3) Links to other Internet sources of environmental restoration and compliance data and information.
- (4) Information and products developed at the Tri-Service Center.

The Environmental FWG Internet Web Site has been organized into the following general categories. The web page will be reorganized and updated by the Tri-Service Center as the need arises.

- (1) Environmental FWG membership and purpose information.
- (2) Links to other Internet sources of ER/EC data and information.
- (3) Documents and files (e.g., meeting minutes, papers, presentations, etc.)
- (4) ER/EC CADD/GIS initiatives and activities information.
- (5) Link to the Tri-Service Web Site containing downloadable environmental hazards, HTRW, and other CADD details and symbols.
- (6) Link to the Tri-Service Center Home Page.

## Air Force Internet Web Sites

*Air Force Center of Environmental Excellence (AFCEE)* - Home Page for AFCEE which provides access to the Air Force Installation Restoration Program Information Management System (IRPIMS) software - <http://www.afcee.brooks.af.mil/index.html>

*Pro-Act* - Web Site sponsored by AFCEE designed to distribute environmental information to Air Force personnel and civilian employees - [http://www.afcee.brooks.af.mil/pro\\_act/main/proact4.htm](http://www.afcee.brooks.af.mil/pro_act/main/proact4.htm)

*Kelly AFB* - Home Page for the Kelly AFB Environmental Management Office - <http://www.kelly.afb.org/links/pub/environ/environ.htm>

*Hill AFB* - Home Page for the Hill AFB Environment, Safety, and Occupational Health Branch - <http://esoh-www.hill.af.mil/>

*Air Force* - Web Site with links to other Air Force Web Sites - <http://www.dtic.dla.mil/airforcelink/>

## Army Internet Web Sites

*Army Acquisition Pollution Prevention Support Office* - Contains pollution prevention information such as substitutions for ozone depleting chemicals - <http://www.aappso.com/>

*Army Environmental Center* - Home Page for the Army Environmental Center (AEC), whose mission includes centralized management, oversight, coordination, and execution of Army's environmental programs - <http://aec-www.apgea.army.mil:8080/>

*Environmental Training Support Center* - Home Page for the Army Environmental Training Support Center (ETSC), which provides environmental training for Army personnel and its

civilian employees - <http://www.hnd.usace.army.mil/etsc/>

*Army Environmental Policy Institute* - Home Page for the Army Environmental Policy Institute (AEPI), which helps the Army's Secretariat develop policies and strategies to address environmental issues - <http://aepi.gatech.edu/>

## 3 Findings

---

The information compiled during the research process was stored in an Access (Microsoft, Inc.) database (called the ER/EC Database) for management and report generation. The database table structure is shown in Figure 1. The summary reports that have been generated from the compiled information are included in Appendices B - F. Additional, more detailed information will be provided on the Environmental FWG Web Site.

### ER/EC Points-of-Contact

The individuals identified through the research and interviews as involved with the accomplishment of ER/EC activities are listed in Appendix B (Alphabetical Listing by Name) and Appendix C (Alphabetical Listing by Installation/Organization). A total of 200 individual POCs were identified.

The summary listings in Appendix B include POC name, office name and mailing address, work phone number, and E-mail address. The summary listings in Appendix C include POC name, office name, work phone number, and E-mail address. More detailed information is available in the ER/EC Database. The POC information contained in the ER/EC Database will be transferred to the Tri-Service Center's POC Database.

### ER/EC CADD/GIS Initiatives

A total of 50 initiatives were identified, which are summarized in Appendix D.

In general, all Air Force bases are scheduled to have an environmental GIS in place by the end of FY97. The Air Force initiative is to map all IRP sites to the base comprehensive plan and link it to their IRPIMS database. The Air Force will use ArcView (ESRI, Inc.) for the GIS.

The Navy (NAVFACENGCOM, Southwest Division, San Diego, CA) is developing a GIS for NAS North Island. The system includes Environmental, such that Environmental is a module of the GIS. The GIS is being used to integrate functional codes and facilitate communication as well as being a valuable resource for graphic and non-graphic information.

NAVFACENGCOM, HQ has developed an Internet "GIS" that integrates BRAC activity maps with IRP sites. The information is obtained from the Navy's Environmental Database (NORM) and displayed when the user clicks on the IRP sites. This can be accessed from "www.ncts.navy.mil/homepages/navfac/env." The USMC (29 Palms) is mapping the ecology system on the Internet for NAWS China, Edwards Air Force Base, MCLB Barstow, and 29 Palms.

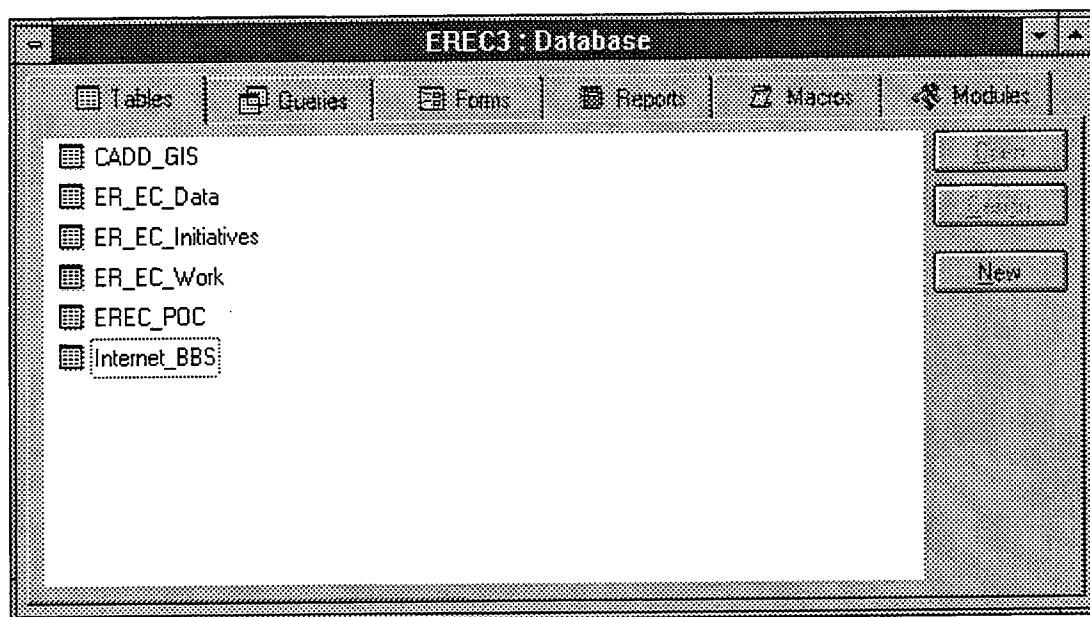

Figure 1. Environmental Restoration/Environmental Compliance Database Table Schema

Lakehurst Naval Air Station has developed an ARC/INFO (ESRI, Inc.) ER/EC GIS.

Several of the USACE District offices have been using GIS for mapping civil works projects for several years and are beginning to use GIS for ER/EC activities. River Environmental Geographical Information System (REGIS), is used for hydrological surveys, navigational charts, and levee profiles. The COE District offices, in general, have more experience with CADD/GIS than the other services.

Fort Bliss is incorporating the Tri-Service Spatial Data Standards into an ARC/INFO GIS with an Oracle database for Pan American Center for Environmental Studies (PACES) program for monitoring environmental change along the United States and Mexican borders. Environmental changes to be monitored are vegetation, animal life, water quality, etc. The project involves partnering with NASA and the University of Texas, El Paso.

The Tri-Service CADD/GIS Technology Center has developed the TSSDS which include standards for the development of ER/EC GIS and spatial data management systems.

## Use of CADD/GIS Technology in Accomplishing Environmental Restoration/ Compliance Activities

A total of 83 responses on the use of CADD and/or GIS in the accomplishment of ER/EC activities are summarized in Appendix E.

Information concerning the types of CADD and/or GIS software used was also collected and stored in the ER/EC Database. A summary of the different types of software is not provided in this report, but can be provided upon request.

## Available Electronic Information and Data

A summary of installations/offices which responded to portions of the survey concerning available electronic information and data is included in Appendix F. The categories of available electronic information and data include:

- a.* Digital Aerial Photography.
- b.* Air Quality Data.
- c.* Cadastral Data.
- d.* Geological Data.
- e.* Surface Water Quality Data.
- f.* Remedial Design/Action Specifications.
- g.* Soil Quality Data.
- h.* Sediment Quality Data.
- i.* Risk Assessment Data.
- j.* Regulatory Criteria.
- k.* Orthophotos.
- l.* Hydrographic Data.
- m.* Groundwater Hydrology Data.
- n.* Groundwater Quality Data.
- o.* GIS Data.
- n.* Wetlands Data.
- q.* Other Digital Data.

# Appendix A

## Information Sheet and Survey Questionnaire Form

---

### Tri-Service CADD/GIS Technology Center Environmental Field Working Group Environmental Restoration and Environmental Compliance ER/EC Activities Survey Information Sheet

#### PRIVACY ACT STATEMENT:

**AUTHORITY:** 5USC 301,10 USC 8012

**PURPOSE:** The Tri-Service CADD/GIS Technology Center's (Tri-Service Center's) Environmental Field Working Group is currently undertaking an effort to identify and review ER/EC initiatives, and to communicate with other agencies and organizations involved with such activities. The ER/EC initiatives are to include existing initiatives, initiatives currently under development, and initiatives to be developed in the future. The agencies and organizations of concern include the Department of Defense (DoD); Environmental Protection Agency (EPA); other branches of the federal, state, and local government; research institutions; and universities.

The purpose of this effort is two-fold: (1) Minimize the duplication of effort, encourage communication, and facilitate the transfer of available information and knowledge concerning ER/EC activities between the various DoD, EPA, non-DoD Federal Government, schools/universities, contractor, and other appropriate organizations and (2) Determine the extent that CADD, GIS, and other computerized technologies are used for accomplishing ER and EC activities, determine training needs, and determine methods for facilitating the greater usage of these technologies in the future.

The findings of this effort will be summarized in a technical report that will be available for distribution throughout the DoD, Federal Government, and public. An electronic version of the report will be made

available on the Tri-Service Center's Homepage on the Internet at address <http://mr2.wes.army.mil>. The Tri-Service Center will submit a summary of the CADD/GIS usage, the identified CADD/GIS training needs, and the identified future CADD/GIS software capability needs to the various CADD and GIS software vendors. The Tri-Service Center will develop the CADD/GIS training sessions which are not commercially available.

**ROUTINE USES:** Information gathered through this survey will be included in a technical report, the purpose of which will be to encourage communication and facilitate the transfer of available information and knowledge concerning ER/EC activities between the various DoD, EPA, non-DoD Federal Government, schools/universities, contractor, and other appropriate organizations.

**STATUS OF RESPONDENT PARTICIPATION:** Participation is voluntary.

**ACTIONS TO BE TAKEN IF ALL OR PART OF THE REQUESTED INFORMATION IS NOT PROVIDED:** No action will be taken if the members do not wish to complete this questionnaire.

**GENERAL:** The Tri-Service Center was established at the U.S. Army Engineer (USAE) Waterways Experiment Station (WES), Information Technology Laboratory (ITL), Vicksburg, Mississippi, in October 1992. Its mission is to function as a coordination center and rely on the capabilities throughout the DoD for the accomplishment of specific tasks and application development related to CADD/GIS applications and technology. The functions of the Tri-Service Center are to provide limited applications development, promote communications, develop standards, provide technical consultation, provide a technical role in acquisitions, interface with professional organizations and industry, evaluate technological developments, and recommend necessary CADD/GIS policy.

The function of the Tri-Service Center's Environmental Field Working Group (EFWG) is to provide guidance and input, recommend projects, identify needs, and assist the Tri-Service Center in accomplishing its projects, specifically in the area of environmental management (e.g., environmental engineering, restoration, and compliance).

The Tri-Service Center functions under the guidance and direction of the Executive Steering Group composed of Dr. Robert Wolff (Air Force), present chairman of the group; Dr. Get Moy (Navy); Capt. James Jarrell (Navy); Mr. Charlie Cheung (Army Corps of Engineers); Mr. Doug Kamien (Army Corps of Engineers); Col. Peter Sowa (Army); and Mr. Steven Stockton (Army Corps of Engineers).

The goals and objectives of the Tri-Service Center are reviewed and guided by the Executive Working Group, currently chaired by Mr. Ed East (Army Corps of Engineers), and composed of Dr. N. Radhakrishnan (WES); Mr. Deke Smith (Navy); Mr. Stan Shelton (Army); Lt. Col. Stephen Waller (Air Force); Mr. Don Ritenour (Air Force); Mr. M.K. Miles (Army Corps of Engineers); Mr. Jim Carberry (Navy); Mr. Tom Rutherford (OSD); Mr. Gary Huneycutt (Air Force); Mr. Jeff Huskey (Navy); and Mr. Paul Herold (Coast Guard).

Dr. Robert W. Whalin is the Director of WES, and COL Bruce K. Howard, EN, is the Commander. Dr. N. Radhakrishnan is the Director of ITL, and Mr. John Hood, PE, is the acting Chief of the Tri-Service Center.

The members of the EFWG currently include Mr. Christopher Kyburg, SW Division Naval Facilities Engineering Command (NAVFACENGCOM), present chairman of the group; Mr. Sam Bass, USAE

District, Omaha, Corps of Engineers Hazardous, Toxic, and Radioactive Waste (HTRW) Center of Expertise, present vice-chairman; Mr. Steven Gonzales, NAVFAC HQ; Mr. Tom Stephan, Northern Division NAVFACENGCOM; Mr. Phil Hunter, HQ Air Force Center for Environmental Excellence (AFCEE); Mr. Mung Lun Yuen, HQ AFCEE; Mr. Lawrence Mann, USAE District, Seattle; Ms. Vicky Cwiertnie, Army Aberdeen Proving Ground; Mr. Kamel Mardini, Air Force Aeronautical Systems Center (ASC); and Ms. Terri Bright, Army Environmental Center.

**DEFINITIONS:** For the purpose of this survey, the following terms and definitions apply:

*Environmental Restoration (ER)* - Activities such as site assessments; site investigations; studies; feasibility studies; remedial designs; remedial actions; treatment, reduction, or removal concerning hazardous, toxic, and radioactive waste (HTRW), ordnance and explosive waste (OEW), chemical warfare materials, and biological warfare materials in the air, soil, sediment, groundwater, and/or surface water, which are, or have the potential to be, detrimental to life and ecosystems on the earth. Also called environmental remediation and environmental cleanup. Includes the Installation Restoration Program (IRP), Defense Environmental Restoration Program at Formerly Used Defense Sites (DERP-FUDS), and Superfund.

*Environmental Compliance (EC)* - Activities involving the management of chemicals and hazardous materials and wastes, processes, and activities in such a manner to comply with federal, state, and/or local environmental laws and regulations. Also includes studies and abatement activities involving building environmental hazards (e.g., asbestos, lead, radon, PCBs, etc.), and the management of fuel and chemical storage tanks and appurtenances, and hazardous materials and hazardous waste.

*ER/EC Initiative* - This survey focuses on past, current, and/or future ER/EC initiatives. For the purpose of this effort, an ER/EC initiative can consist of four main topics:

- a. ER/EC programs and projects which made/make use of CADD and/or GIS technology.
- b. Sources of the essential information and requirements (in electronic format) for ER/EC activities (e.g., federal, state, and/or local regulations; state, local, and federal regulator-accepted cleanup criteria and concentrations; background concentration data; risk assessment criteria and data; material safety data sheets (MSDS); applicable or relevant and appropriate requirements (ARARs); lessons learned; CADD details; standard operating procedures (SOPs); historic and current air, soil, groundwater, surface water, and sediment environmental quality data; historic and current aerial photographs and maps; boring and well logs, development data, and monitoring data.) The sources of information may be available either through Internet web pages, electronic bulletin boards, or an office which disseminates the information.
- c. Database schemata and programs designed to manage data and facilitate the accomplishment of ER/EC activities.
- d. Computer programs which perform analysis, management, modeling, or other functions relating to ER/EC activities.

## **SURVEY INSTRUCTIONS:**

This survey has been designed to require a minimum completion time and can be completed by one person in each separate office within an organization involved with ER/EC activities. Each individual completing and returning the questionnaire will be provided a copy of the completed technical report and will be placed on the Tri-Service CADD/GIS Technology Center's mailing list to receive future information concerning the Center's programs and CADD/GIS items of interest in the fields of ER/EC. If you have any questions concerning this effort, please contact **Bobby Carpenter** at phone no. (601) 634-4572.

Please mail, FAX, or email the completed questionnaire to the following address:

Bobby Carpenter  
Tri-Service CADD/GIS Technology Center  
Waterways Experiment Station  
CEWES-IM-DA  
3909 Halls Ferry Road  
Vicksburg, MS 39180-6199  
Fax no. 601-634-4584  
email address: carpenb@ex1.wes.army.mil

=====

### Optional information to assist the Tri-Service CADD/GIS Technology Center in serving you better:

30. Approximate number of years of CADD usage for ER/EC type work *(check one)*

\_\_\_\_\_ a. 1 - 2 years \_\_\_\_\_ b. 2 - 5 years \_\_\_\_\_ c. More than 5 years  
\_\_\_\_\_ d. None, and will probably not be used in near future. \_\_\_\_\_ e. None, but will possibly be used in near future.  
\_\_\_\_\_ f. None, but will definitely be used in near future.

**31. Approximate number of years of GIS usage for ER/EC type work (check one)**

- \_\_\_\_\_ a. 1 - 2 years      \_\_\_\_\_ b. 2 - 5 years      \_\_\_\_\_ c. More than 5 years  
 \_\_\_\_\_ d. None, and will probably not be used in near future.      \_\_\_\_\_ e. None, but will possibly be used in near future.  
 \_\_\_\_\_ f. None, but will definitely be used in near future.

**32. What types of CADD/GIS/computer training would help you and/or others in your office do ER/EC work activities better? (Check and provide information for all that apply)**

- \_\_\_\_\_ a. Introductory Use of CADD for ER/EC, Type Preferred (e.g., AutoCAD, MicroStation) \_\_\_\_\_  
 \_\_\_\_\_ b. Introductory Use of GIS for ER/EC, Type Preferred (e.g., ARC/INFO, MGE) \_\_\_\_\_  
 \_\_\_\_\_ c. How to use CADD software for (give specific types of activities; e.g., manage monitoring well and sampling data)

\_\_\_\_\_

\_\_\_\_\_

- \_\_\_\_\_ d. How to use GIS software for (give specific types of activities; e.g., manage monitoring well and sampling data)

- \_\_\_\_\_ e. How to use a computer software program which (give specific types of activities; e.g., model contamination plumes)

\_\_\_\_\_

\_\_\_\_\_

- \_\_\_\_\_ f. Others

\_\_\_\_\_

\_\_\_\_\_

**33. What types of CADD/GIS/computer software capabilities or enhancements do you believe would increase your office's productivity in accomplishing ER/EC related work? (List recommendations)**

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

**34. What types of government-developed computer programs are used for your office's ER/EC related work? (List computer software packages used)**

Function	Software/Program Name	Manufacturer Name
example: <i>Project Management</i>	<i>FUDS Database</i>	<i>Waterways Experiment Station</i>
example: <i>Feasibility Studies/Remedial Design</i>	<i>Visitt</i>	<i>Environmental Protection Agency</i>
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

**35. What type, version, and source of commercially available non-CADD/GIS computer program software is used for your office's ER/EC related work?** *(e.g., volume visualization and analysis modeling, Voxel Analyst NT, Intergraph Corporation)*

---

---

---

---

**36. Are you interested in serving as a member of the Environmental Field Working Group or assisting the Tri-Service CADD/GIS Technology Center on an ER/EC related project? (circle one)**

YES      NO

**37. Comments:**

# Appendix D

## ER/EC CADD/GIS Initiatives

---

**Installation/Office Name**      Air Force Headquarters Europe

**Office Title**

**POC Name**                      Randy C. Vanslambrouck

**Work Phone**

**Fax Number**

**Email Address**                vanslamr@usafe22.ramstein.af.mil

**Initiatives Name**

**Initiatives Description**      Setting up an Intergraph MSE GIS for three Air Force bases in Europe in TSSDS format. Have contracted to convert more than 200 maps. Environmental hazards documentation will be included in work.

---

**Installation/Office Name**      Avon Park Air Force Range

**Office Title**

**POC Name**                      Peg Margosian

**Work Phone**                    (941) 452-4191

**Fax Number**

**Email Address**

**Initiatives Name**

**Initiatives Description**      Collect information about natural resources and cultural features on range; analyze information to support or correct management of natural resources; output maps for use in field, presentation etc. Hazards, wells, and other "EC" issues comprise a small but growing section of the GIS.

---

**Installation/Office Name** Crane Naval Weapons Support Center

**Office Title**

**POC Name** Tom Brent

**Work Phone** (812) 854-6160

**Fax Number**

**Email Address**

**Initiatives Name**

**Initiatives Description** GIS to be used for management and interpretation of large volumes of environmental restoration data.

---

**Installation/Office Name** Edwards AFB

**Office Title**

**POC Name** Robert Kraszewski

**Work Phone** (805) 277-1448

**Fax Number**

**Email Address** kraszewb%em@mhs.dlan.af.mil

**Initiatives Name**

**Initiatives Description** Provide a tool for comprehensive planning including the environmental GIS coverage of the Mojave eco system.

---

**Installation/Office Name** Fort Bliss

**Office Title** Environment

**POC Name** Richard J. Manning

**Work Phone** (915) 568-3804

**Fax Number** (915) 568-6979

**Email Address** rich@bliss-env1.army.mil

**Initiatives Name** PACES

**Initiatives Description** Incorporating TSSDS into an ARC/INFO/Oracle database development project underway by Fort Bliss and University of El Paso's (UTEP) Computer Science's Dept. UTEP has been awarded funding from NASA for the Pan American Center of Environmental Studies (PACES) program for monitoring environmental change along the U.S./Mexican Border. Environmental changes to be monitored will involve vegetation, animal life, water quality, impact of Ft. Bliss firing range, etc.

---

<b>Installation/Office Name</b>	Fort Chaffee
<b>Office Title</b>	Information Management
<b>POC Name</b>	Richard Scott
<b>Work Phone</b>	(501) 484-2231
<b>Fax Number</b>	
<b>Email Address</b>	Rich@bliss-envl.army.mil
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	Natural and cultural resources compliance, environmental compliance and restoration.

---

<b>Installation/Office Name</b>	Fort Drum
<b>Office Title</b>	
<b>POC Name</b>	Carol Cady
<b>Work Phone</b>	(315) 772-4852
<b>Fax Number</b>	
<b>Email Address</b>	
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	Initiative is to provide spatial information management and cartographic support in the areas of Cultural and Natural Resources, Environmental Branch, Master Planning, and Range Control.

---

<b>Installation/Office Name</b>	Fort Lewis
<b>Office Title</b>	Public Works
<b>POC Name</b>	Brandy Riche
<b>Work Phone</b>	(206) 967-4985
<b>Fax Number</b>	
<b>Email Address</b>	
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	GIS serves mainly the Natural/Cultural Resources and NEPA. Used to help managers make quicker, more informed decisions based on all available data.

---

**Installation/Office Name**      Hickam Air Force Base

**Office Title**

**POC Name**                      Bill Grannis

**Work Phone**                    (808) 449-9073

**Fax Number**                    (808) 449-9723

**Email Address**

**Initiatives Name**

**Initiatives Description**      Various CADD and GIS projects

---

**Installation/Office Name**      Hill AFB

**Office Title**                    Environmental Branch

**POC Name**                      Mark Holt

**Work Phone**                    (801) 777-3684

**Fax Number**                    (801) 777-4306

**Email Address**                holtn@hillwpos.hill.af.mil

**Initiatives Name**

**Initiatives Description**      Arc-Info Sun workstation is used for natural resources, compliance, IRP, and decision making on activities.

---

**Installation/Office Name**      Intergraph Federal Systems

**Office Title**

**POC Name**                      Chris Waagen

**Work Phone**                    (703) 264-5734

**Fax Number**

**Email Address**

**Initiatives Name**

**Initiatives Description**      Intergraph hardware and software were selected by the US Army for prototype facilities management systems at Ft. Drum, NY and Ft. Knox, KY.

---

**Installation/Office Name** Intergraph Services Company

**Office Title**

**POC Name** John R. Clayton

**Work Phone** (703) 753-2658

**Fax Number**

**Email Address**

**Initiatives Name**

**Initiatives Description** Currently used for USACE-SWT and EFA South Div. Each project had its own unique requirements and goals, but by and large, the intent was to invest time in collecting, converting, and storing data in support of efficient day-to-day operational and analytical aspects of environmental management. That may have involved preparation for public meetings as well as reports to state and/or federal oversight agencies. In addition, support was provided at a project in a phase in which the most important aspect was to show proof of concept in order to attract the level of support necessary to bring the system to fruition and full application.

---

**Installation/Office Name** Lakehurst Naval Air Station

**Office Title** Environmental

**POC Name** Greg Bury

**Work Phone** (908) 323-1014

**Fax Number**

**Email Address** buryg@lakehurst.navy.mil

**Initiatives Name**

**Initiatives Description** GIS used to get all environmental data in one place, provide data accountability, automate product generation

---

**Installation/Office Name** Marine Corps Air Ground Combat Center

**Office Title** GIS/Remote Sensing Lab

**POC Name** Paul Kip

**Work Phone** (619) 830-7641

**Fax Number** (619) 830-5718

**Email Address** otis\_diehlk@pendleton.usmc.mil

**Initiatives Name** Mohave Desert Eco System

**Initiatives Description** \$5 million project that will integrate the following factivities eco system on the Internet: China Lake, Edwards Air Force Base; MCLB Barstow; 29 Palms.

---

<b>Installation/Office Name</b>	McClellan AFB
<b>Office Title</b>	Tech Info Systems
<b>POC Name</b>	Alex Johnson
<b>Work Phone</b>	(916) 643-0830
<b>Fax Number</b>	
<b>Email Address</b>	
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	Initiatives are categorized into three main areas: 1) Integrate data from many contractors and base; 2) provide capability for independent analysis; and 3) provide information source for EM customers.

---

<b>Installation/Office Name</b>	Naval Research and Development
<b>Office Title</b>	Environmental
<b>POC Name</b>	Gerry Key
<b>Work Phone</b>	(619) 533-3233
<b>Fax Number</b>	
<b>Email Address</b>	key@nosc.mil
<b>Initiatives Name</b>	Environmental Data Model
<b>Initiatives Description</b>	Forth Normal environmental data model

---

<b>Installation/Office Name</b>	NAVFACENGCOM, Atlantic Division
<b>Office Title</b>	
<b>POC Name</b>	Turner Cole
<b>Work Phone</b>	(804) 322-4896
<b>Fax Number</b>	(804) 322-4834
<b>Email Address</b>	coletf@efdlant.navfac.navy.mil
<b>Initiatives Name</b>	Maps
<b>Initiatives Description</b>	Pilot projects: Norfolk Naval Base, Building footprints attaching NFADB. Activity Maps: Cherry Point; Camp Lejume; Yorktown NWS Fuel Depot; Roda, Spain, Bahrain; Keflavik; Crany Island Fuel Depot; St Julian Creek Annex; Norfolk NSY, Portsmouth; NWest; Portsmouth Navl Hosp.; Little Creek; Oceana NAS; Fentress Naval Aux. Landing Field; Sabana Seca; Vieques; Roosevelt Roads; Culebra; Rodman, Panama; St Thomas; Quantanamo Bay.

---

<b>Installation/Office Name</b>	NAVFACENGCOM, Atlantic Division
<b>Office Title</b>	Environmental Quality Division
<b>POC Name</b>	William F. Mullen
<b>Work Phone</b>	(757) 322-4588
<b>Fax Number</b>	(757) 322-4805
<b>Email Address</b>	mullenwf@efdlant.navfac.navy.mil
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	IRP projects are underway at numerous installations under jurisdiction of LANTDIV/LANTOPS. Intergraph ERMA and Tri-service Spatial Data Standards are being used as standard GIS platform.

---

<b>Installation/Office Name</b>	NAVFACENGCOM, Engineering Field Activity
<b>Office Title</b>	
<b>POC Name</b>	Norman T. Lew
<b>Work Phone</b>	(415) 244-2599
<b>Fax Number</b>	
<b>Email Address</b>	
<b>Initiatives Name</b>	Digital Format
<b>Initiatives Description</b>	The following activities are available in digital format: Alameda Annex Fisco; Alameda NADEP; Alameda NAS; Centerville Beach NF; China Lake NAWS; Concord NWS; Crows Landing; EFA West; Fallon NAS; Hunters Point; Lemoore NAS; Magna NIROP; Mare Island NS; Moffett Field; Monterey NPGS; Oakland FISC; Oakland NH; Port Hueneme CBC; Port Hueneme CEL; Pt Molate NFD; Pt Mugu NAWS; Pt Sur NF; San Francisco PWC; Skaggs Island NSGA; Stockton NCS; Treasure Island NS.

---

<b>Installation/Office Name</b>	NAVFACENGCOM, HQ
<b>Office Title</b>	Environmental Operations Division
<b>POC Name</b>	Steven C. Gonzales
<b>Work Phone</b>	(703) 325-0356
<b>Fax Number</b>	(703) 325-2156
<b>Email Address</b>	scgonzales@hq.navfac.navy.mil
<b>Initiatives Name</b>	Environmental Restoration Progress on the WEB
<b>Initiatives Description</b>	GIS used for BRAC Installations on the WEB. Tri-Service symbols and environmental data from in-house database are linked. Please see <a href="http://www.navy.mil/homepages/navfac/env">http://www.navy.mil/homepages/navfac/env</a>

---

**Installation/Office Name** NAVFACENGCOM, Northern Division

**Office Title**

**POC Name** John S. Mayhew

**Work Phone** (610) 595-0567

**Fax Number** (610) 595-0555

**Email Address**

**Initiatives Name**

**Initiatives Description** Installation restoration project. To ensure environmental samples and analytical results are tied to specific locations on earth. To be able to view and query the database and post information to various overlays to make more informed decisions regarding current or future environmental risks and/or required actions. Also to use as a means for more effective communication between stakeholders including the general public.

---

**Installation/Office Name** NAVFACENGCOM, Northern Division

**Office Title** Environmental

**POC Name:** Emil Klawitter

**Work Phone** (610) 595-0567

**Fax Number** (610) 595-0555

**Email Address** eeklawitter@efdnorth.navfac.navy.mil

**Initiatives Name**

**Initiatives Description** GIS covered installation wide for Philadelphia Naval Complex.

---

**Installation/Office Name** NAVFACENGCOM, Pacific Division

**Office Title**

**POC Name** Joel Pai

**Work Phone** (808) 474-5323

**Fax Number** (808) 474-5870

**Email Address** jpai@efdpai.navy.mil

**Initiatives Name** kaho'lawe Island

**Initiatives Description** Provide cost model for 30-meter x 30-meter grid to clean up UXO. Contractor - Intergraph/Julian Salas.

---

<b>Installation/Office Name</b>	NAVFACENGCOM, Pacific Division
<b>Office Title</b>	Engineering Systems
<b>POC Name</b>	Wayne Abrigo
<b>Work Phone</b>	(808) 474-5324
<b>Fax Number</b>	(808) 471-5870
<b>Email Address</b>	wabrigo@efdpac.navy.mil
<b>Initiatives Name</b>	Maps
<b>Initiatives Description</b>	Available maps: Pearl Harbor Naval Station; Subase Pearl; Diego Garcia; Camp Smith; Barber's Point; Kaneohe MCAS; NAS Agana; NAS Barrigada; Yokosuka; Johnston Island; Midway; Akasaki, Japan; Foster Island; Iwakuni; Ford Island.

---

<b>Installation/Office Name</b>	NAVFACENGCOM, Southwest Division
<b>Office Title</b>	Environmental (Code 18)
<b>POC Name</b>	Christopher Kyburg
<b>Work Phone</b>	(619) 532-1998
<b>Fax Number</b>	(619) 532-3642
<b>Email Address</b>	cekyburg@efdswest.navfac.navy.mil
<b>Initiatives Name</b>	Navy Environmental Data Transfer Standard
<b>Initiatives Description</b>	Neutral file transfer standard with lists of valid values for contracting and transfer of environmental data.

---

<b>Installation/Office Name</b>	NAVFACENGCOM, Southwest Division
<b>Office Title</b>	Environmental
<b>POC Name</b>	Christopher Kyburg
<b>Work Phone</b>	(619) 532-1998
<b>Fax Number</b>	(619) 532-3642
<b>Email Address</b>	cekyburg@efdswest.navfac.navy.mil
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	Initiative is to learn the software and interdiscipline communication, test TSSDS, and develop an active interest in GIS.

---

**Installation/Office Name** Pine Bluff Arsenal

**Office Title**

**POC Name** Charles Becker

**Work Phone** (501) 540-2834

**Fax Number**

**Email Address**

**Initiatives Name**

**Initiatives Description** GIS used for natural resources management.

---

**Installation/Office Name** U.S. Army Aberdeen Proving Ground

**Office Title**

**POC Name** Victoria L. Cwiernie

**Work Phone** (410) 278-6756

**Fax Number**

**Email Address**

**Initiatives Name**

**Initiatives Description** Establish environmental GIS to manage environmental data and provide better decision tools for project managers. The GIS will be the central collection point for all data and database links.

---

**Installation/Office Name** USAE District, Alaska

**Office Title** Engineering Branch

**POC Name** Catherine Holland

**Work Phone** (907) 753-2664

**Fax Number** (907) 753-5701

**Email Address** catherine.e.holland@usace.army.mil

**Initiatives Name** Formerly Used Defense Site Program (FUDS)

**Initiatives Description** Being developed for the FUDS Program in FY97. GIS is used for navigation in Civil Works. Formed a partnership with CERRL to develop GIS projects.

---

---

<b>Installation/Office Name</b>	USAE District, Chicago
<b>Office Title</b>	
<b>POC Name</b>	Mary Martin
<b>Work Phone</b>	(312) 353-6400
<b>Fax Number</b>	(312) 886-2891
<b>Email Address</b>	mary.martin@smtp.ncd.usace.army.m
<b>Initiatives Name</b>	EIS
<b>Initiatives Description</b>	EIS use with GIS. Primary use of GRASS.

---

<b>Installation/Office Name</b>	USAE District, Detroit
<b>Office Title</b>	Engineering: Hydrology
<b>POC Name</b>	Roger Gauthier
<b>Work Phone</b>	(313) 226-3054
<b>Fax Number</b>	(313) 226-2398
<b>Email Address</b>	gauthier@great_lakes.net
<b>Initiatives Name</b>	Contaminated Sediments.
<b>Initiatives Description</b>	Major Watersheds for Great Lakes Area. Trying to cut a CD with runtime base of Arc-View.

---

<b>Installation/Office Name</b>	USAE District, Huntington
<b>Office Title</b>	Engineering Division
<b>POC Name</b>	Jim Vassar
<b>Work Phone</b>	(304) 529-5208
<b>Fax Number</b>	(304) 529-5209
<b>Email Address</b>	jimv@mail.orh.usace.army.mil
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	West Virginian Ordnance Works being done at Nashville District.

---

<b>Installation/Office Name</b>	USAE District, Huntsville
<b>Office Title</b>	
<b>POC Name</b>	Bill Craven
<b>Work Phone</b>	(205) 895-1612
<b>Fax Number</b>	
<b>Email Address</b>	
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	GIS used for monitoring, operations and maintenance, and automation of tasks. Also has the potential to trim cleanup timeline.

---

<b>Installation/Office Name</b>	USAE District, Little Rock
<b>Office Title</b>	Engineering Division
<b>POC Name</b>	Steve Corley
<b>Work Phone</b>	(501) 324-5710
<b>Fax Number</b>	(501) 324-6908
<b>Email Address</b>	steve.c.corley@usace.army.mil
<b>Initiatives Name</b>	Civil Works Projects
<b>Initiatives Description</b>	Input all LAKE boundaries (Civil Works Projects) into microstation.

---

<b>Installation/Office Name</b>	USAE District, Little Rock
<b>Office Title</b>	Planning and Management
<b>POC Name</b>	Trish Anslow
<b>Work Phone</b>	(501) 324-5836
<b>Fax Number</b>	
<b>Email Address</b>	trish@enviro.swl.usace.army.mil
<b>Initiatives Name</b>	ARC
<b>Initiatives Description</b>	Wetlands database is in Informix and there's an initiative to use ARC information.

---

<b>Installation/Office Name</b>	USAE District, Louisville
<b>Office Title</b>	Survey and Mapping
<b>POC Name</b>	Boyd McClellan
<b>Work Phone</b>	(502) 582-5661
<b>Fax Number</b>	(502) 582-5108
<b>Email Address</b>	boyd.k.mcclellan@smtp.orl.usace.army
<b>Initiatives Name</b>	GIS Committee
<b>Initiatives Description</b>	GIS committee was established 1996. Contracted for GIS Implementation Plan on several pilot projects.

---

<b>Installation/Office Name</b>	USAE District, Memphis
<b>Office Title</b>	Planning Division
<b>POC Name</b>	Gloria Markovzci
<b>Work Phone</b>	(901) 544-3857
<b>Fax Number</b>	(901) 544-3955
<b>Email Address</b>	markovzcg@smtp.lmm.usace.army.mil
<b>Initiatives Name</b>	ARC-INFO
<b>Initiatives Description</b>	Summary report on Arc-Info vs. MGE recommended Arc-Info. GIS needs: (A.) Customer Needs; project maps, property maps, database information/ demographics, topographic maps, flood outline maps. (B.) Environmental Branch; Environmental applications: wetland and wildlife habitat analysis, wetland delineation (NWI maps, hydric soils), monitoring wetland restoration projects, delineation of dead or dying timber, project impact analysis, endangered species analysis (habitat, known sightings, nesting area sites, etc.), least tern survey, fat pocketbook pearly mussel (St. Francis Basin). Land and River Data; Databases/mapping, project feature layouts (spillway, dam, levee, (etc.) proposed site laid out over quad maps), contour mapping, tracking maps (private and/or government ownership of land), utilities overlay (gas or transmission lines, underground cable locations, etc.), flood lines (stage area curves), stream and river bottom profiles, sandbar location and size. HTRW Assessments; RCRA and CERCLIS Sites, HTRW producers, landfill locations (open and closed), illegal dump locations, LUST and UST locations. Cultural Resources; Areas surveyed or not surveyed, location of significant vs. nonsignificant vs. nothing found sites, historic vs. prehistoric sites (period if prehistoric), architectural sites, overlay ROW (construction vs. survey) of project area, electronic map library (reference or update). (C.) Economics Branch; Land use information (rural, urban, zoning), demographics, structures and contents, Other data from outside sources, flood outlines, real-time flood damage analysis. (D.) Plan Formulation Branch; project maps, land use maps, topographic maps, display/presentation materials, acreage/ database information, property maps, demographic information. (E.) Flood Plain Management; flood plain information for FEMA and others, CADD drawings for reports, project base maps, topographic maps, data from others.

---

<b>Installation/Office Name</b>	USAE District, New Orleans
<b>Office Title</b>	Design Service Branch
<b>POC Name</b>	James Flock
<b>Work Phone</b>	(504) 862-2565
<b>Fax Number</b>	(504) 862-1585
<b>Email Address</b>	james.flock@mail.usace.army.mil
<b>Initiatives Name</b>	REGIS
<b>Initiatives Description</b>	Hydro survey book; navigation charts; levee profiles; REGIS-River Environmental Geographic Information System.

---

<b>Installation/Office Name</b>	USAE District, Omaha
<b>Office Title</b>	Survey Section
<b>POC Name</b>	Jon Kragt
<b>Work Phone</b>	(402) 221-4614
<b>Fax Number</b>	(402) 221-4202
<b>Email Address</b>	jkragt@gismaster.mro.usace.army.mil
<b>Initiatives Name</b>	RAMS
<b>Initiatives Description</b>	RAMS linked with Arc-Info. Boating and Recreation maps with GIS.

---

<b>Installation/Office Name</b>	USAE District, Philadelphia
<b>Office Title</b>	
<b>POC Name</b>	Frank Schaeffer
<b>Work Phone</b>	(215) 656-6550
<b>Fax Number</b>	(215) 656-6543
<b>Email Address</b>	
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	Flood studies; navigation projects; dredge disposal; regulatory

---

**Installation/Office Name**      USAE District, Rock Island

**Office Title**

**POC Name**                      Thomas M. DeWitte

**Work Phone**                    (309) 794-6153

**Fax Number**

**Email Address**

**Initiatives Name**

**Initiatives Description**      GIS used for environmental compliance at the Rock Island Arsenal and environmental restoration at Badger Army Ammunition Plant.

---

**Installation/Office Name**      USAE District, Rock Island

**Office Title**                      Planning Section

**POC Name**                      Kevin Anderson

**Work Phone**                    (309) 794-5586

**Fax Number**                    (309) 794-5710

**Email Address**                kevin.l.anderson@ncrmail.ncr.usace.army.mil

**Initiatives Name**                Navigation Study

**Initiatives Description**      Upper Mississippi River Illinois Waterway Navigation Study.

---

**Installation/Office Name**      USAE District, Savannah

**Office Title**                      Spatial Engineering

**POC Name**                      Ricky Truluck

**Work Phone**                    (912) 652-5521

**Fax Number**                    (912) 652-5252

**Email Address**                richard.l.truluck@sas02.usace.army.mil

**Initiatives Name**                SOW

**Initiatives Description**      SOW for all deliverables in electronic form. Customer dependent on hardware and software. Major milestone is Fort McPherson, Fort Gilliam, Fort Bragg and Fort Benning.

---

<b>Installation/Office Name</b>	USAE District, Seattle
<b>Office Title</b>	
<b>POC Name</b>	Lori Danielson
<b>Work Phone</b>	(206) 764-6084
<b>Fax Number</b>	(206) 764-6816
<b>Email Address</b>	lori.d.danielson@internet.nps.usace.army
<b>Initiatives Name</b>	EIS
<b>Initiatives Description</b>	Environmental Impact Statements wildlife/wetland mitigation studies master plan.

---

<b>Installation/Office Name</b>	USAE District, St. Louis
<b>Office Title</b>	Survey
<b>POC Name</b>	Paul Clouse
<b>Work Phone</b>	(314) 331-8390
<b>Fax Number</b>	(314) 331-8346
<b>Email Address</b>	paul.clouse@usace.army.mil
<b>Initiatives Name</b>	REGIS
<b>Initiatives Description</b>	REGIS-River Engineering and Environmental GIS ( <a href="http://www.lmv.usace.army.mil/homepage/reegis/reegis.htm">www.lmv.usace.army.mil/homepage/reegis/reegis.htm</a> )

---

<b>Installation/Office Name</b>	USAE District, Wilmington
<b>Office Title</b>	Cost Engineering
<b>POC Name</b>	Paul Mason
<b>Work Phone</b>	(910) 251-4789
<b>Fax Number</b>	(910) 251-4965
<b>Email Address</b>	paul.j.mason@usace.army.mil
<b>Initiatives Name</b>	Dredge Management Plan
<b>Initiatives Description</b>	Dredge material maintenance management plan currently not funded but is being endorsed.

---

<b>Installation/Office Name</b>	USAE District, Wilmington
<b>Office Title:</b>	Environmental/CADD Coordinator
<b>POC Name</b>	Doug Wall
<b>Work Phone</b>	(910) 251-4440
<b>Fax Number</b>	(910) 251-4002
<b>Email Address</b>	doug.wall@usace.army.mil
<b>Initiatives Name</b>	Reservoir Projects
<b>Initiatives Description</b>	Mostly Civil Works Reservoir Projects. Lakes in NC. Some Lakes in VA.

---

<b>Installation/Office Name</b>	USAE Division, Huntsville
<b>Office Title</b>	Support Center
<b>POC Name</b>	Tony Hunt
<b>Work Phone</b>	(205) 895-1615
<b>Fax Number</b>	(205) 895-1602
<b>Email Address</b>	huntt@smtp.hnd.usace.army.mil
<b>Initiatives Name</b>	Fact Sheets
<b>Initiatives Description</b>	Amaknak, Alaska; Southwest Proving Ground, Arkansas; Baywood Park Training Area, California; Camp Elliot, California; Camp Simms, Washington D.C.; Ft. Pierce NATC, Florida; Illinois Ordnance Plant; Camp Grant Rifle Range, Illinois; Jefferson Proving Ground, Indiana; Camp Claiborne, Louisiana; Ft. Meade, Maryland; Assateague Island, Maryland; Nebraska Ordnance Works; Duck Target Facility, N. Carolina; Umatilla Depot, Oregon; Culebra Island NWR, Puerto Rico; Motlow Range, Tennessee; Nansemond Ordnance Plant (Tidewater), Virginia; Assateague Island, Virginia.

---

<b>Installation/Office Name</b>	USAE Waterways Experiment Station
<b>Office Title</b>	Tri-Service CADD/GIS Technology Center
<b>POC Name</b>	Bobby Carpenter
<b>Work Phone</b>	(601) 634-4572
<b>Fax Number</b>	(601) 634-4584
<b>Email Address</b>	carpenb@ex1.wes.army.mil
<b>Initiatives Name</b>	Tri-Service Spatial Data Standards
<b>Initiatives Description</b>	Develop GIS and spatial data standards for use in environmental restoration/compliance activities.

Page 17 of 18

Wednesday, October 09, 1996

---

<b>Installation/Office Name</b>	Vandenburg AFB
<b>Office Title</b>	Environmental Branch
<b>POC Name</b>	Karl Kneeling
<b>Work Phone</b>	(805) 734-8232
<b>Fax Number</b>	(805) 734-1339
<b>Email Address</b>	
<b>Initiatives Name</b>	
<b>Initiatives Description</b>	Base comprehensive plan will have all IRP sites mapped and integrated with IRPIMS.

# **Appendix E**

## **Use of CADD/GIS Technology in Accomplishing ER/EC Activities**

13. ABSTRACT (Maximum 200 words) This report summarizes the findings of an effort accomplished by the Tri-Service CADD/GIS Technology Center's (Tri-Service Center's) Environmental Field Working Group (FWG) during fiscal year 1996 (FY96) to identify and review Environmental Restoration (ER) and Environmental Compliance (EC) initiatives using Computer-Aided Design and Drafting (CADD) and/or Geographic Information System (GIS) technology. The purpose of this effort was two-fold: (1) Minimize the duplication of effort, encourage communication, and facilitate the transfer of available information and knowledge concerning ER and EC activities between the various Department of Defense (DoD) organizations; and (2) Determine the extent that CADD, GIS, and other computerized technologies are used for accomplishing ER and EC activities, determine training needs, and determine methods for facilitating greater usage of this technology in the future.
